

Amendment to the Specification

Please make of record the following Abstract:

The invention relates to a compound of general formula (I) in which C represents an alicyclic or heterocyclic group having  $C_{2v}$  symmetry, and B represents ortho- $C_6$ - $C_{18}$ -arylene. The invention also relates to a method for producing this compound and to the use thereof as a coloring agent for coloring or pigmenting organic or inorganic high-molecular or low-molecular, particularly high-molecular, organic materials.
